Please retain this document for your future reference.

A. Pre-requisites

Before you install the software, please check if your computer meets minimum hardware and system requirements as specified below.

Minimum Requirements:

Hardware: CPU 1 GHz or higher, RAM 1GB, HDD free space 350 MB

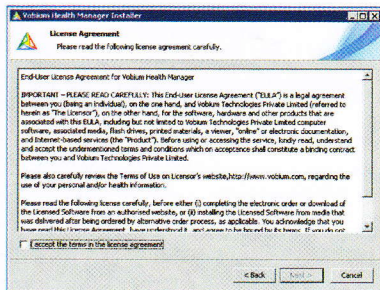

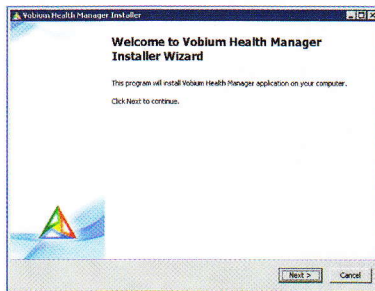

Systems: Microsoft® Windows® XP/Windows Vista®/Windows® 7 installed with latest service packs

B. Installation of Software

Please follow the below listed steps for installation.

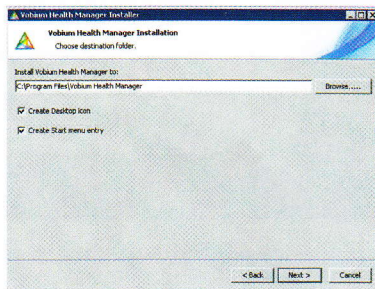

Step 1. Insert CD into CD/DVD drive of your computer. If the setup wizard doesn't start automatically, open 'My computer' (Windows® XP)/ 'Computer' (Windows Vista®, Windows® 7), select the CD/DVD drive and launch the installation file Vobium_Health_Manager.exe by double clicking on it.

Step 2. This will start the setup wizard and you will see the adjoining screen. Click on Next button

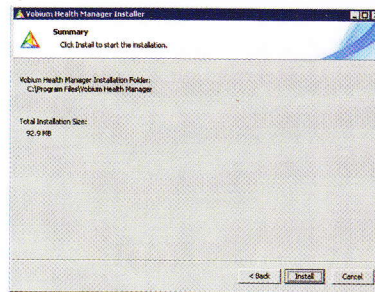

Step 3. Please carefully read through the license agreement and click on check box if you accept it. Proceed by clicking on Next button.

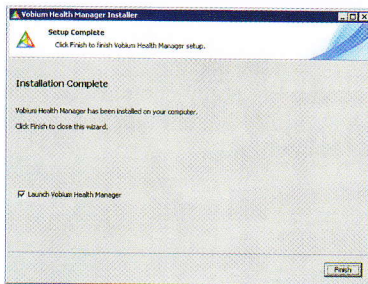

Step 4. Select installation folder and click on Next button.

Step 5. Click on Install button to proceed with installation.

Step 6. On successful completion of installation, you can choose to launch the application by selecting the check box next to "Launch Vobium Health Manager" and click on Finish button.

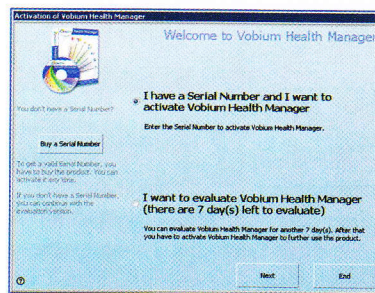

C. Product Activation

After setup wizard completes installation of software, on first launch of Vobium Health Manager the Product Activation Wizard will open which will guide you through the activation process. Activation is required in order to access all the application features and to receive support as defined in End User License Agreement. An active internet connection is required for activation. Please follow steps listed below to activate the application.

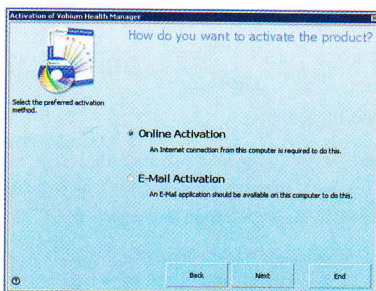

Step 1. Select option "I have a Serial Number and I want to activate Vobium Health Manager" and Click Next

In case you do not have a valid Serial Number and want to use Vobium Health Manager in evaluation mode without activation, select the second option and click Next.

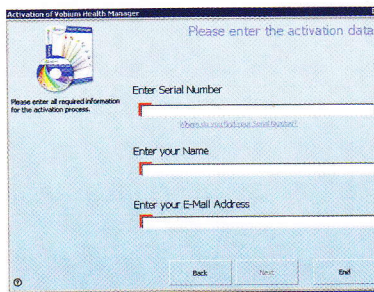

Step 2. Select Online Activation (Recommended) and click on Next button.

Please refer to Product Activation FAQ's section on our website (<http://www.vobium.com/vhmfaqs>) for activation using email.

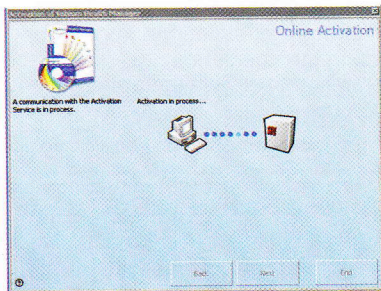

Step 3. Enter the Serial Number provided on the front page of this document. Enter your actual name and valid email address and click on Next button.

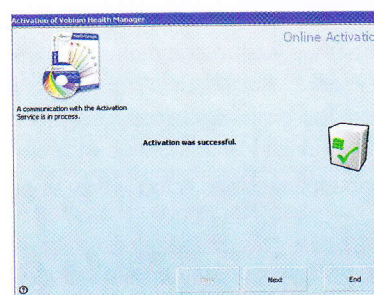

Note: Only these credentials can be used for all future communications with Vobium Technologies Private Limited with regards to support.

Step 4. On next screen enter proxy details (if you are behind firewall) and click next to connect to activation center. For connecting to activation center, please ensure that you are connected to internet.

Step 5: On successful activation, click on Next button to proceed to "First User Creation" of the application.
